WINTER SWEET PEA.

A Recent Introduction.

"NEGRO"—the Very Latest.

1/6 per packet. Post Free.

NEGRO.—Wonderful dark maroon—the darkest pea so far introduced. Large, shapely flowers; first time offered by anyone—absolutely new. Persistent flowerer. Very handy. Easy to grow for exhibition. Nearly always four blooms on long stiff stems (often 22 inches).

Special Sweet Peas.

1/- per packet. POST FREE.

GOLDEN FLEECE.

The best cream. Nicely waved.

FIELD DAISY.

A better wave than Dunmore Beauty. Large white ground, pink edge Picotee. (1922 Medal, Adelaide Trials.)

AMBER.

Dwarf. Easily grown. Pale apricot like amber. Large flower, heavily waved. Many victories.

QUEENSLAND PURPLE.

Royal purple. Improved after cold weather is over. Good about September.

EARLY MADONNA.

If anything, better than White Champion. Very large.

WHITE CHAMPION.

A wonderful white. Took Champion, 1923, Sydney, Chatswood, Hornsby and Manly. Rather hard to germinate. Better sown in boxes and transplanted.

For general list of Sweet Peas ask for Sweet Pea List.

SHEPHERD'S 6d

(1d. extra postage).

VEGETABLE GUIDE.

60 ILLUSTRATIONS.

"Vegetable Growers' Gardening Guide," issued by P. L. C. Shepherd & Son, Ltd., 734 George Street, Sydney. This book, which is priced at 6d. (add 1d. postage), will fill a long felt want in Sydney and District, as it contains 32 pages of sound practical advice—a complete calendar of operations—what to plant and sow for each month of the year—60 illustrations—and some pertinent remarks on matters of interest to the home gardener.

To get early blooms, when flowers are scarce, use this type. They are exceptionally large, the standard being waved or frilled, and remarkably graceful and attractive. Some old favourites have been discarded, and this list is a good guide to the "pick of the bunch."

LITTLE-KNOWN ASTHMA HERB.

Purveyor's Humble Claims.

Sufferers from Asthma have probably tried without success many cures that have been advertised as possessing wonderful soothing and curative powers, and are probably loath to try another remedy.

Now there is a herb being offered in Sydney, for which the sellers do not make any extravagant claims, yet it has brought great relief to all who have tried it, and in many cases it has effected permanent cures. This herb is procurable from P. L. Shepherd and Sons, Ltd., who have been established 97 years, and who agree to refund your money if you are dissatisfied with it, which leads one to believe the herb is genuine.

It is grown in Fiji, and the firm came upon it by accident. It was given to customers to try, and their recommendations caused a demand to set in; hence Shepherd's, although seedsmen, felt it their duty to continue getting supplies. The price is 2/6 and 3d. postage.

BEWARE OF PALMS.

Some hawkers are wrongly using our name, selling table palms. We have no carts selling our goods. The only way to obtain our good, reliable, well-established table palms, etc., is to call at our new address.

A WILD GARDEN FOR CHILDREN AND ADULTS.

Some bare spot of ground can quickly and cheaply be covered by using a 6d. packet of Mixed Flower Seeds—it contains hundreds of kinds, and is really wonderful value. Like all our packets, it carries the guarantee, viz.: "If seeds fail, return empty packet and get another free."
